PROFESSIONAL SUMMARY

Full Stack Developer and Summa Cum Laude graduate with a Bachelor's degree in Computer Information Systems earned in the United States while competing as an NCAA student-athlete. Proactive, adaptable, and solution-oriented, I enjoy solving complex problems through technology and have built modern web applications, AI-powered automations, and scalable digital products that improve user experiences and business processes.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS

Backend: Node.js, Express.js, PostgreSQL, Supabase, Prisma, SQL, REST APIs

Tools: Git, GitHub, Vercel, Figma, Power BI, Excel, n8n

Languages: Spanish (Native), English(Bilingual)

EXPERIENCE

Technical & Marketing Operations Assistant

Bologna Performing Arts Center (BPAC) — Delta State University | Aug 2024 – May 2026

- Supported website maintenance and digital operations for a university performing arts center.
- Managed Instagram and Facebook campaigns focused on increasing student engagement and improving event attendance.
- Built an inventory tracking system and analytics dashboard for concession stand operations using data-driven reporting.
- Analyzed audience behavior and social media metrics to optimize campaign performance and outreach.

Founder & Web Developer | Full Ride — Next.js, TypeScript

- Developed a conversion-focused platform connecting students with international educational opportunities. Helped +10 students from Argentina to find a college in United States to study and play sports
- Managed social media and client relationships.

PROJECTS

Full Stack Developer | ZenTask 2.0 — Electron, React, Gemini API | [Browse](#)

- Built an AI-powered desktop productivity app with task scheduling, AI-generated subtasks, and Notion sync.

Full Stack Developer | ChampDash — Next.js, TypeScript, Supabase | [Browse](#)

- Built a Kanban productivity platform with authentication, drag-and-drop workflows, and secure database architecture.
- Designed a modern UI inspired by Linear and Notion, focused on UX and responsiveness.

Automation Developer | AI Business Automation

- Built AI-powered chatbot and workflow automation systems using n8n and API integrations.
